

SNAP Emergency Allotments will end.

Since April 2020, SNAP recipients have been receiving the maximum allowable amount of SNAP benefits, based on family size, with a minimum of an extra \$95 in emergency allotments each month during the public health emergency (PHE).

Due to federal guidelines, SNAP recipients will no longer receive additional monthly benefits starting March 2023.

To find out what your monthly benefit amount will be without the SNAP emergency allotment, log in to your account on YourTexasBenefits.com or the mobile app and go to Case Details, or call 2-1-1, Option 2. You do not

need to speak to an agent. The benefit amount provided on 2-1-1 or YourTexasBenefits.com will not include the SNAP emergency allotment benefit amount.

Recipients will receive a notice the month before the emergency allotment ends.
